

## PROUD OF THE DEED.

The Assassin Santo Glories in His Act.

Says He Acted on His Own Responsibility.

## NOTHING PERSONAL.

He Killed Carnot Because He Was a Tyrant.

LYONS, June 27.—Santo, the assassin, was again before the examining magistrate. The prisoner declared himself an anarchist detailed to a policy of violence. He said he acted upon his own initiative; he had not been engaged in any conspiracy to murder the president. Nevertheless, it has been ascertained that when Santo stopped at Vienna and Montpellier, he had several suspicious conferences with persons suspected of being in league with the anarchists. In addition, at Vienna he slept at the house of an anarchist. The police investigation has already led to the arrest of three persons at Vienna believed to have been engaged in the conspiracy.

It is now said to be established that Santo lived for some time in the Rue Traversiere, Paris, occupying a room in the house of an Italian wine dealer. The assassin's name was registered at the labor exchange.

Santo stated while being examined by the magistrate that he had no personal grievance against President Carnot. He killed him because he was a tyrant. The magistrate asked: "Are you an anarchist?"

Santo replied: "Yes, and I am proud of it."

"Why did you kill the president?"

"I will tell a jury; they shall know the motives that prompted my action."

"How did you stab M. Carnot?"

"I pushed aside a cuirassier's horse. I had the dagger concealed in my sleeve, and I only had to raise my hand. I aimed at his stomach and brought my arm down sharply, at the same time shouting 'Vive l'anarchie!'"

The crowd rushed at me and prostrated me, and I was beaten mercilessly."

"You persist in affirming that you did not have accomplices?"

"Yes—but is the president dead?"

Santo gathered from the magistrate's silence that his blow had been effective. He smiled with satisfaction and raising his hand simulated the stabbing. The examination lasted four hours, and the magistrate was convinced that Santo acted alone.

RIOTING AT GRENOBLE.

The Mob Makes an Attack on the Italian Consulate.

GRENOBLE, June 27.—At 2 o'clock yesterday afternoon the Italian cafes were attacked. A number of Italian stores were treated in the same manner. The mob marched through the streets, shouting "Down with the Italians." Several Italians who were met in the streets were beaten and kicked. The mob was reinforced and proceeded to the Italian consulate.

The police vainly tried to check the mob. The leaders procured a ladder, fixed it to the balcony of the consulate, and several rioters, headed by a drunken carpenter, entered the consulate, tore up the Italian flag, smashed the escutcheon, broke the furniture, threw the statues upon the floor and kicked them to pieces and, seizing upon two large, handsome oil paintings, representing King Humbert and Queen Margaret of Italy, threw them into the street.

A detachment of military engineers was summoned and the soldiers charged upon the mob. After a short conflict the rioters were driven out of the consulate, which was occupied by the troops and the prefect made an apology to the Italian consul.

ANARCHISTS BECOME BOLD.

Incendiary Talk From Many of the More Notorious Ones.

LONDON, June 27.—A dispatch from Paris states that Louise Michel, the notorious woman anarchist, says that the execution of President Carnot was no more than a simple act of justice. In M. Carnot a whole class, the whole bourgeois world, has been struck at. M. Carnot embodied the execrable capitalist republic. It was not merely Deibler's (the executioner) president, but also the Panamianist president who has fallen under Santo's dagger. Anarchy will once more have deserved well of mankind, for love of mankind is the sole object of anarchy. Individual revolt is the prelude to the grand plebeian revolt from which social harmony will emerge.

Alexandere Cohen, a Belgian anarchist, who was recently expelled from France, says it was not an assassination, but an execution. Ravachol, Vaillant and Henri have been avenged. Carnot was pitiless to anarchists. Coldly and cruelly, despite counsels to clemency, he has handed them over to Deibler. He who sows the wind will reap the whirlwind.

Sympathy From Americans.

PARIS, June 27.—The American residents of this city have drawn up a long address of sympathy and condolence with M. Carnot and the French government upon the death of the president. This address will be presented to the widow and the government through the United States ambassador, the Hon. James B. East.

Mme. Carnot has piles of letters threatening her husband and sons, received before and after the execution of Vaillant and Henri. Not long ago M. Carnot, when walking in the Bois with General Borius, chief of his military household, was shadowed by a sinister-looking fellow, of whom he could only rid himself by retreating to his carriage. He had been warned

from Italy to keep well guarded. Other warnings came from Brussels to beware of the Grand prix on June 17. In December 300,000 francs were voted to increase the police force, but M. Carnot was left practically unguarded.

Deputies to Fight a Duel.

PARIS, June 27.—At a plenary meeting of the Republican deputies and senators, which was called to decide upon a candidate for the presidency, the members of the two chambers were unable to come to an agreement, and the meeting culminated in an uproar, during which Deputies Berteaux and Sausset came to blows. The result of the encounter is that both gentlemen have appointed seconds, and a duel will shortly be fought.

THE PRENDERGAST CASE.

An Important Ruling by Judge Payne—Prendergast on the Stand.

CHICAGO, June 27.—Judge Payne yesterday rendered a decision in the Prendergast insanity hearing which will have an important bearing on the case. In deciding a point raised by counsel the judge said he would instruct the jury that the defense must prove that the assassin has become insane since his last trial otherwise the former verdict must stand, even though Prendergast be found insane at the present time.

The prisoner, attempted several times to address the court and was finally put on the stand and examined by Judge Payne. Prendergast's testimony was incoherent in the main, but his answers at times were surprisingly shrewd and sharp.

MOORE-FUNSTON CONTEST.

Majority and Minority Reports Presented to the House.

WASHINGTON, June 27.—The house committee on elections made report yesterday on the Moore-Funston contest case. A minority report was filed by the Republicans in favor of Funston. The majority report stands out for Moore. It had been expected that Paynter of Kentucky, a Democrat who voted against Moore in committee, would sign the minority report, but he has concluded that he will not do that, but will explain on the floor of the house why he cannot see that Moore is elected.

The report of the committee, taking the position that Moore is elected by something like forty votes, was prepared by Jones of Virginia.

Missouri Populists.

CHILLICOTHE, Mo., June 27.—The Populists of the Third district met here yesterday and nominated J. C. Goodson, a resident of Carroll county, for congress.

## BOYCOTT STARTED.

Illinois Central Trainmen Walk Out in Chicago.

It is Proposed to Tie Up All Other Lines.

## SANTA FE AT RATON.

The Trainmen and Engineers Will None of It.

CHICAGO, June 27.—The threatened strike to enforce the boycott of Pullman cars was inaugurated at 8 o'clock last night, when the American railway union ordered the Illinois Central men out. The switchmen were the first to obey and quietly walked out, tying up the suburban as well as the express train service.

The 9 o'clock train for St. Louis was allowed to pull out, as it was made up before the boycott went into effect, but that train, the men asserted, was the last that would be allowed to leave until the Pullman strike is settled.

The union men were quiet and orderly, but apparently determined to a man to maintain the boycott.

The strike, it was asserted by an American Railway union officer, will extend immediately to five other roads, the Chicago, St. Paul and Kansas City, Wisconsin Central, Northern Pacific, Southern Pacific and Santa Fe.

TIED UP IN COLORADO.

Santa Fe Trains at Trinidad and Raton in the Hands of Strikers.

TRINIDAD, Col., June 27.—The Santa Fe passenger train from the West, due here at 6 o'clock, is tied up at Raton. The Gulf train will be tied up here on its arrival from the South unless the officials permit it to go on without the Pullman.

RATON, N. M., June 27.—In accordance with instructions issued by the American Railway union, a committee of five stood off themselves at the Santa Fe depot here and upon the arrival of the east bound limited express train cut out the Pullman car. The yardmaster was powerless to prevent the interference, and his switchmen could do nothing. The officers of the division have ordered the train held here until further orders, notwithstanding the fact of it being a mail train.

Excitement is now at a high pitch, as the officers are trying to find an engineer to handle the car. So far their efforts have availed nothing.

ENGINEERS WILL NOT PARTICIPATE.

Chief Arthur Says His Organization Will Not Be in the Fight.

CLEVELAND, Ohio, June 27.—Chief Arthur of the Brotherhood of Locomotive Engineers, speaking of the Pullman boycott yesterday said, that his organization had no connection with the American railway union whatever and would therefore not be affected in any manner by the same.

Brotherhood of Trainmen Not in It.

GALESBURG, Ill., June 27.—President Debs of the American railway union, after the boycott against Pullman cars had gone into effect, wired to the Brotherhood of Railway Trainmen headquarters asking the co-operation of the brotherhood and the presence of Grand Master Wilkerson at a conference to be held in Chicago.

The grand master is not in the city, but other officers hold out little encouragement to him for co-operation. They say the time was before, not after, the boycott had been declared. They manifest a disposition not to be drawn into the trouble, and say they had nothing to do with the strike at Pullman or its consequences.

No Trouble in Kansas City.

KANSAS CITY, Mo., June 27.—The strike ordered by President Debs, of the American railway union, among the employees of the Pullman palace car company had no perceptible effect upon the business of the company in Kansas City. All the trains handling Pullman cars were allowed to send out the usual number of coaches and there was no sign of interference. There are only about 200 employees of the company in the Kansas City jurisdiction, and this lack of numerical strength is perhaps accountable for the lack of action.

Thompson Will Come Home.

SEDALIA, Mo., June 27.—A letter was received yesterday from J. C. Thompson, cashier of the district First National bank, who is now residing in the City of Mexico, by P. D. Hastain, mayor of Sedalia. The document is an appeal for sympathy, with threats to expose citizens of Sedalia if the prosecution is turned into persecution. He claims that he used no disguise while traveling and will return to Missouri and stand trial when charges are preferred against him, either in the state or United States court.

Fiendish Act of a Father.

MILLVILLE, N. J., June 27.—Joseph Whitsett stabbed his wife with a blacksmith's file, cut his daughter's throat with a razor, set fire to his house and tried to burn himself to death in the flames. Mrs. Whitsett will recover but the daughter will probably die.

GRAND, Kan., June 27.—A heavy windstorm commenced here about 8:30 o'clock Monday evening and lasted until about 3 o'clock yesterday morning. The waiting-room of the Santa Fe depot was completely demolished, the ticket-office unroofed and much other damage done to the depot.

ALBUQUERQUE, N. M., June 27.—Conductors Krutz and Summerville of the Atlantic and Pacific railroad report myriads of hoppers on the Continental Divide west of the city. The tracks became so slippery from the slaughter that the wheels would slip under the engines and sand had to be used.

## QUEEN ANNE STYLE.

Handsome and Cheap Cottage of Eight Rooms Costing but \$1,500.

(Copyright, 1894, by Pulliser, Pulliser & Co., Architects, 24 East 42d St., N. Y.)

For a compact arrangement this handsome little house cannot be beat. There is a splendid cellar under the whole house, arranged for the storage of fuel and other purposes. A well has also been put down in the cellar which, with the cistern, supplies an unlimited amount of water at the kitchen sink through the aid of a pump. The attic is very spacious and will be found very useful as a place for drying

clothes, or should it be found necessary at some future time two rooms could be finished off, which would be almost as good sleeping rooms as any in the house.

There is but one chimney, which is so placed that it can be used from all the rooms on first floor. The staircase is also placed in a position to be of access from all parts of the house. Two doors are placed between the hall and kitchen, a feature which cannot fail to commend itself.

The windows in the hall and staircase are filled entirely with ornamental and stained glass, as are also those in the attic. The other windows in the house have the lower sash glazed in two lights of ordinary glass, while the upper sash has a white light in the center and small colored lights on each side. The interior is finished in a very pleasing yet economical manner. The casings of doors and windows are trimmed with a back mold, though it is not mitered at the angles, as is usually done, but a square block, ornamented with cunk work to be picked out in color, is placed in the corner and the molding cut square against it. This is a decided

improvement on the monotonous mitered back mold which we see in nearly every house. The rooms are all of ample accommodation to meet the requirements, and each chamber is supplied with a good closet.

The exterior is very striking, the front gable very handsome and a free rendering of what is known as the Queen Anne style of architecture. The front veranda, and especially the hood over the entrance, is very pretty—in fact, this is one of the prettiest designed cottages which will always attract attention. An architect designs a building with special reference to the color to be used in painting, and as color is the life of design his instructions in this respect should be minutely followed if the desired result is to be arrived at. This cottage has been painted venetian red, trimmed with indian red, the chambers, cut and sunk work being picked out in black, making it very effective and showing the detail boldly. The cost is \$1,460, and we doubt if there is any one who can show a prettier house, either in arrangement or appearance, for the same price.
